Yummy Butterfly

Together, read Eric Carle’s book: The Very Hungry Caterpillar. Talk about the life cycle of a caterpillar and how it becomes a butterfly. Using four different plates, search for foods that could represent each of the four stages of the life cycle. Create each stage with a variety of foods and you now have a yummy display of how a caterpillar changes to a butterfly.

1. A little egg lay on a leaf.
2. The tiny caterpillar emerges from the egg.
3. A chrysalis forms around the caterpillar.
4. He turns into a beautiful butterfly.
