**Star Mobile**

This simple-to-make mobile is made from drinking straws, paper clips and construction paper. They look great hanging from the ceiling!

**Supplies:**
- Drinking straws
- Paper clips
- Construction paper
- Scissors

To make the basic unit of the mobile, slip a paper clip on the middle of a straw. Slip a paper clip on the straw near each end.

Make a few of the units in the last step, and put them together using paper clip chains. To make the mobile balance, you can slide the paper clips over.

Cut out some colorful stars made from construction paper.

Clip the paper stars to your mobile. Then hang the entire mobile from the ceiling!
