

Ice Cream Scooper

Help your child set up their very own ice cream shop. Make a large batch of white play dough and put it in a large plastic container. Using a real ice cream scoop, have your child dish up ice cream scoops for family members, dolls or stuffed animals. For great play dough recipes check out:

Cherry On Top

No ice cream is complete without a cherry on top. Place red pompoms in a bowl and have your child transfer the pompom from the bowl to the top of the play dough ice cream using a spoon or small tongs. See if you can do it without using your hands! Even though all of your ice creams are vanilla, find out what is the most favorite flavor.

Favorite Flavor

Make a graph of the flavors and ask family members, neighbors, friends and grandparents (you can call them on the phone, email them or send them a text message). White flavor was the favorite?
