

# Insects Have 6 Legs

**Read the book:** *An Ants Day Off* by Bonny Becker

Count how many legs insects have and compare it to how many legs other animals have (people, dogs, spiders, snakes, etc.)

## Make Your Own Bug

### What You Need:

- cotton balls
- egg cartons
- google eyes
- pipe cleaners
- construction paper
- glitter, any other material that you want to use.

### What You Do:

- Cut the egg cartons and let the children make their own bug
- Give the bug a special name
