

The Letter “L” Ladybug

What You Need:

- *A Paper Plate*
- *Red Paint*
- *Black Circles (cut out of construction paper)*
- *Black pipe Cleaners*
- *Glue*
- *Tape*

Have your child paint the paper plate red. Talk about how many people believe that the number of dots on a ladybug is equal to how old it is. Have your child glue or tape the same number as dots as they are in years. Now their ladybug is their same age!

Use pipe cleaners to make antennae and legs. As you work, try to come up with other words that begin with the letter L.
