

The Letter Q: QUITE A QUILT

Using squares of construction paper or fabric, create a family and friend quilt. Have all of your family members or friends decorate a square and then connect the squares together to form a quilt.

You can connect it with yarn, staples or tape. This can be as simple or as elaborate as you desire. Whose squares will you put next to each other? Do you want to make a pattern with various colors of squares? What did people put on their square to represent themselves? Talk about how each person in our life creates a portion of our quilt to make something beautiful. Share memories or ideas about those people and how they make your life a beautiful work of art. Hang your quilt on the wall to remember those people you love.
