

# Drive In Movie

If your child has never been to a drive in movie, talk about what it is and why it is fun. Using a big box, create a car for your child to sit in with a few dolls or stuffed animals. Have them decorate the box so that it looks like a car, making it as simple or as elaborate as you and your child would like. Drive the "car" to the movies (your TV room) or the library (a quiet corner in your house) and enjoy a snack and a favorite TV show or book together.
