

## Leaf Rubbings

Materials: Contact paper, leaf patterns, crayons suitable for "rubbing" in Fall colors and white construction paper.

Description: Tape the leaf cutouts on the table. Place construction paper over the cutouts. Have the children rub the crayon colors of their choice over several of the leaf patterns. Cover front (and back if you choose) with contact paper. These are very bright and colorful. Each child uses his place mat at our Thanksgiving Feast, many use them at home as well.
